THE EXPERIENCE FROM THE CLASSROOM RIGHT INTO YOUR LIVING ROOM

WHY ON-LINE?

The need to connect remains a profoundly human reality, irrespective of times and trends. By connecting with each other we share, learn from one another, ease the burden of loneliness and discover that others are going through the same challenges and maybe have found alternative solutions. Thus, it is our nature to be in connection with others; we cannot live isolated for too long.

- The reality we are in right now is asking from us to compensate the lack of physical connection with a virtual connection, as meaningful as possible.

- Thus, at Trainart, we bring the essence of the classroom experience right into your living room/home office, maintaining interaction at a maximum.

WHY NOW?

As we can all witness, the world is changing in a profound manner and we need to be part of the change, not fear it.

Learning cannot stop; it happens anyway. We can learn the hard-way or the easy-way.

Now we are fully immersed into virtual reality and we need to grab the best out of it, including the learning experience.

WHAT DIFFERENTIATES OUR ON-LINE TRAINING PROGRAMS

TRAINART ON-LINE

We bring the experience from the classroom right into your living room. We keep interaction intact so that at the end you will wonder if that was not actually a classroom session.

“We are equal”. It means cameras ON, visible and active participants. Why? In order to live an experiential learning session, and not a lecture. If the trainer is visible, so are the participants.

Small groups – maximum 15 people. We do not deliver mass training, not even on-line.

The on-line learning process:

- ▶ Learning needs analysis
 - individual discussions with future participants
- ▶ Virtual experience
- ▶ Learning report in the end

OTHER DETAILS

ON-LINE PLATFORMS WE USE

We are open to using a large variety of on-line learning platforms.

Thus we can work with:

- ▶ Zoom
- ▶ Google Meet
- ▶ Skype for Business
- ▶ Adobe Connect

...or any other platform currently used by your teams.

PROGRAM DURATION

In order to maintain the interest of the audience, we have transformed the 2-day training programs into 2-hour on-line sessions, for 2 days.

We recommend a 3-hour maximum duration/session, 2 days.

INVESTMENT

The investment is calculated per participant, in direct relation with the training topic.
